

DR. PETER PRY

COMING TO BATON ROUGE

“U.S. ELECTRICAL GRID VULNERABILITY EXPERT”

"The Grid and Gulf Coast Businesses: Assets Worth Protecting"

- Join us to learn what threatens our region's most critical infrastructure and how you can be part of the coalition working hard to keep it secure.

Electromagnetic Pulse) EMP, GMD (Geomagnetic Disturbance, or Solar Flare), Cyber Threats and Physical Threats

We see articles on the EMP Threat from North Korea and Iran, as well as interviews with former CIA Director Jim Woolsey and former Speaker Newt Gingrich. America is finally starting to take note of EMP threats.

What are the implications to us, our families, our communities, our businesses, our country and American way of life?

Dr. Peter Pry, Executive Director of the EMP Task Force for Homeland Security is a leading expert on EMP and a consultant to the Louisiana Public Service Commission.

Dr. Peter Pry Presentation / Discussion

9:45 AM to Noon

Thursday, September 14, 2017

Louisiana State Police Academy, Bldg. A

7901 Independence Blvd | Baton Rouge, La 70808
